Did you know that construction is one of the fastest growing industries in the nation?

Specifically, the State of Ohio predicts that by 2024, we will need to fill 23,820 positions in the construction industry.

Why Commercial Construction?

- Earn a great hourly wage
- Earn outstanding benefits
- Earn the respect of your peers
- Take pride in building our community
- Earn college credit while mastering a craft
- Many opportunities for Advancement!

EARN WHILE YOU LEARN

A career in a commercial construction trade begins with an apprenticeship. An apprentice will learn both in the classroom and on the job site. They receive wages and benefits and -- in many cases -- credit hours towards an Associate's Degree.

Those who complete an apprenticeship become Journeypersons. **The Northwest Ohio Construction Education Center** is a great resource for career and apprenticeship opportunities!
